Fusion Healthcare Platform®

MADE IN BRITAIN

The Perfect Fit

Supporting our

At a glance

The Fusion Platform seamlessly brings together best-in-class healthcare communication solutions to make a real difference to the day-to-day running of hospitals.

Improved Patient Safety

- Early detection of patient distress
- Faster response times
- Clinical updates communicated in real-time
- Reduction in risk

Patient-centric Care

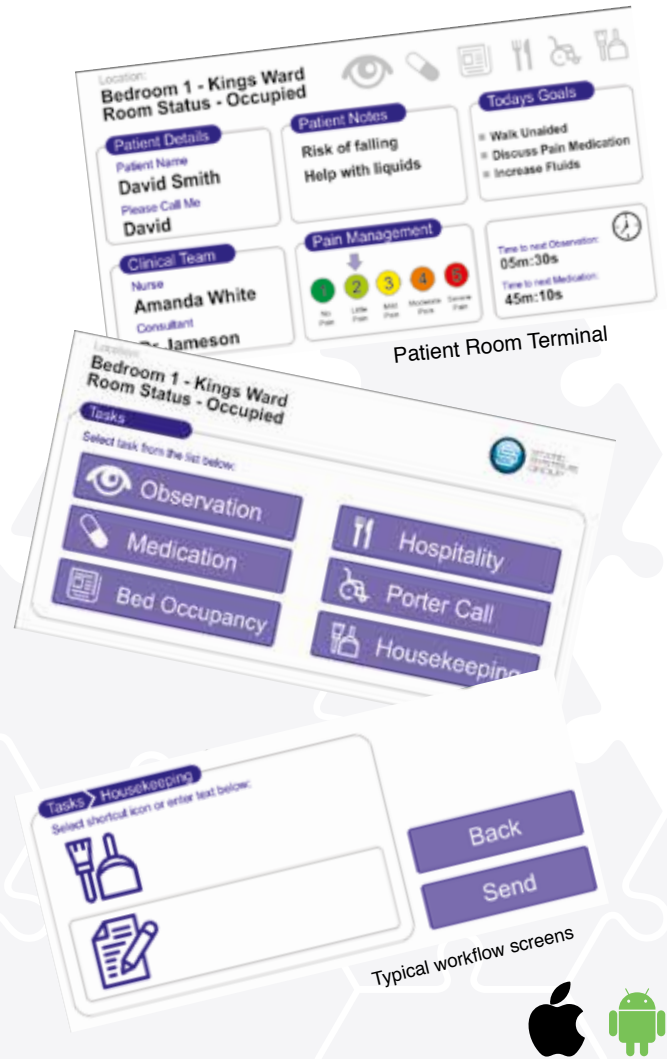

- Co-ordinated care across a wide array of team members
- Significantly enhanced nurse call functionality to empower clinicians and give superior integrated care
- Request message alerts directly to the correct care givers
- Real-time access to patient information, including:
 - Vital signs
 - Medication information
 - Dietary requirements
 - Care plan
 - Pain scores

Enriched Patient Experience

- Updated patient information at the point of care
- Faster response to critical alerts, nurse call and hospitality requests
- More effectual care and time availability at the bedside
- Quieter environment and reduction in alarm fatigue
- Increased patient satisfaction

Engineer Support

- Early fault notification
- Detailed reporting
- Better use of technology including remote interrogation and systems support

The Fusion Healthcare Platform® enables clinical workflow to be easily and dynamically managed from the patient bedside, nurse base or while on the move using smart devices.

Staff Safety and Well-being

- Allows staff to call for immediate assistance
- Deliver message alerts to pre-designated personnel in real-time
- Help to defuse an incident quickly and efficiently
- Reduced pressure on staff
- Restrict access for unauthorised persons
- Generally enhance the healthcare environment and improve patient outcomes

Creating smarter hospitals.

Optimised Workflow Efficiency

- Routes the right task to the right person at the right time
- Instant access to clinical applications and systems
- Easily locate on-call staff
- Quality, real-time updates and reporting
- Tasks dynamically managed from the patient bedside or on the move, including:
 - Reminders
 - Housekeeping, hospitality and porter call requests
 - Bed occupancy
- Promotes collaboration across care teams, instantly and securely connecting physicians, nurses and support staff
- Improved productivity and staff empowerment
- Easy access to results and requests whilst on the go
- Encrypted and traceable messaging

Impacting Cost

- Improved productivity and outcomes resulting from better use of technology and resources
- Planning assistance through real-time reporting and easy access to KPIs
- Connection to a hospital's existing LAN and WAN
- Designed to work with Static Systems nurse call and existing third-party systems
- Industry standard, fully open IP architecture for future-proofing

Working in partnership with...

Static Systems Group (SSG) is uniquely positioned to provide your healthcare communications platform

- Unrivalled expertise in advanced healthcare communications technology.
- Industry-leading partners allowing us to offer impartial advice on the most suitable solutions.
- In-house development and support. We design, manufacture, install and maintain
- An established name that can be trusted.
- Extensive experience working in 'live' ward environments.

Platform Independence

The Fusion Healthcare Platform® is 'platform independent'. This facilitates:

- Connection of Local Area Networks (LAN's) and Wide Area Networks (WAN's).
- Connection of SSG's advanced nurse call systems - and those of third-party providers.
- Connection of SSG's advanced alarm and communication solutions - and those of third-party providers.
