

Where Care Meets Tech

A Customer Guide to Disposal of Fire Alarm Detectors

Disposal of Fire Alarm Detectors

Fire alarm detection devices deployed in a non-hazardous environment have a life span of 10 years. A refresh of devices should be part of a site's lifecycle planning.

We recommend fire alarm detection devices that are beyond economic repair or that have exceeded working life are returned to us or the original manufacturer for safe disposal.

The Spares & Repairs team can advise.

As SSG provide fire detection devices manufactured by the following:

- Apollo Fire Detectors Ltd
- Advanced Fire Security Solutions Ltd
- Hochiki Europe (UK) Ltd
