

HELPING YOU MEET TODAY'S HEALTHCARE CHALLENGES

The Fusion Platform seamlessly brings together best-in-class healthcare communication solutions to make a real difference to the day-to-day running of hospitals.

Improved Patient Safety

- Early detection of patient distress
- Faster response times
- Clinical updates communicated in real-time
- Reduction in risk

Better Patient Care

- Co-ordinated care across a wide array of team members
- Significantly enhanced nurse call functionality to empower clinicians and give superior integrated care
- Request message alerts directly to the correct care givers
- Real-time access to patient information, including:
 - Vital signs
 - Medication information
 - Dietary requirements
 - Care plan
 - Pain scores

Enriched Patient Experience

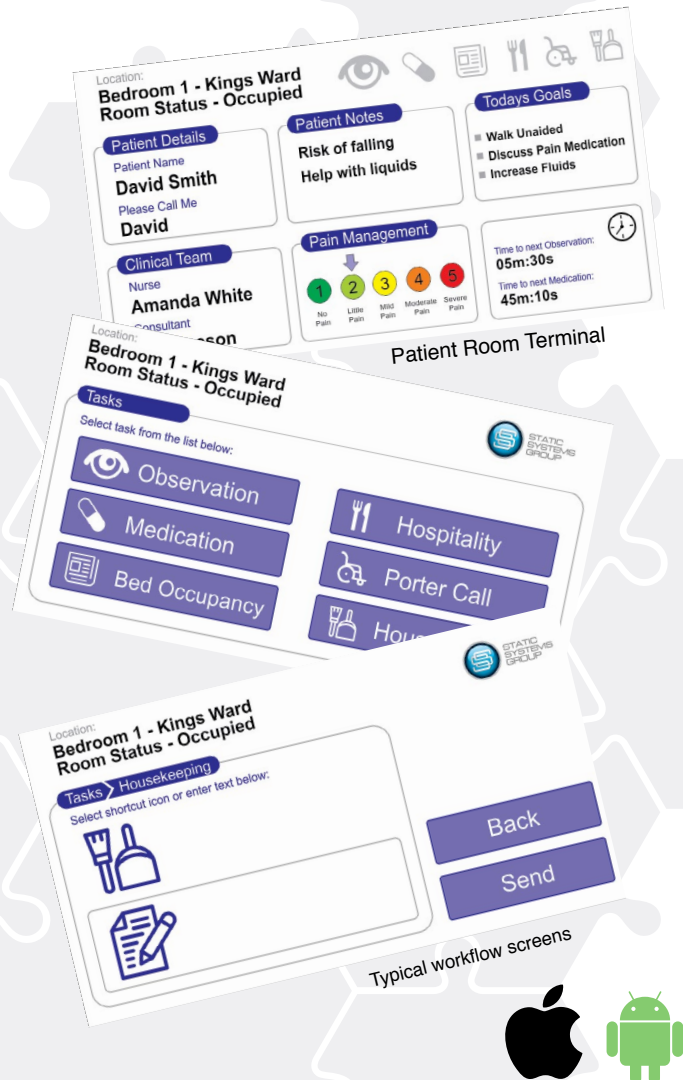

- Updated patient information at the point of care
- Faster response to critical alerts, nurse call and hospitality requests
- More effectual care and time availability at the bedside
- Quieter environment and reduction in alarm fatigue
- Increased patient satisfaction

Upgraded Engineer Support

- Early fault notification
- Detailed reporting
- Better use of technology including remote interrogation and systems support

Dynamic Communication

- Promotes collaboration across care teams, instantly and securely connecting physicians, nurses and support staff
- Improved productivity and staff empowerment
- Easy access to results and requests whilst on the go
- Encrypted and traceable messaging

The Fusion Healthcare Platform enables clinical workflow to be easily and dynamically managed from the patient bedside, nurse base or while on the move using smart devices.

Optimised Workflow Efficiency

- Routes the right task to the right person at the right time
- Instant access to clinical applications and systems
- Easily locate on-call staff
- Quality, real-time updates and reporting
- Tasks dynamically managed from the patient bedside or on the move, including:
 - Reminders
 - Housekeeping, hospitality and porter call requests
 - Bed occupancy

Impacting cost

- Improved productivity and outcomes resulting from better use of technology and resources
- Planning assistance through real-time reporting and easy access to KPIs
- Connection to a hospital's existing LAN and WAN
- Designed to work with Static Systems nurse call and existing third-party systems
- Industry standard, fully open IP architecture for future-proofing

Get more from what you already have...

The Fusion Healthcare Platform can connect to an existing LAN or WAN. It is designed to enhance and work with nurse call systems provided by other suppliers as well as Static Systems' products, and selected FusionFlow™ solutions can be retrofitted to update an existing nurse call system.

 **Aspire smart_{sync}®** / Wireless solution

 **Codemlon™** / Addressable loop wired solution

 **Ultima™** / Full end-to-end, open protocol IP solution

Static Systems is uniquely positioned to provide your healthcare communications platform:

- Unrivalled expertise in advanced healthcare communications technology
- Industry-leading partners allowing us to offer impartial advice on the most suitable solutions
- In-house development and support. We design, manufacture, install and maintain
- An established name that can be trusted
- Extensive experience working in 'live' ward environments
